

## KAISER DID NOT EXACT KOWTOW

Prince Chun Has Avoided Knocking His Forehead on the Ground.

## HE FEELS BETTER

Chinese Expiatory Mission Apologizes for the Murder of Baron Von Ketteler.

## WILL VISIT AMERICA

Potsdam, September 4.—Kaiser Wilhelm received Prince Chun, head of the Chinese expiatory mission at twelve thirty o'clock today. Minister of Foreign Affairs Richthofen and the Imperial staff attended the audience. The kowtow was not exacted. It is expected that Emperor William will pay no further attention to Prince Chun after his majesty has received him in audience.

Basle, Switzerland, September 4.—Prince Chun's first invitation to visit foreign governments was from the United States, followed by invitations from Italy, Belgium, Great Britain and Japan. They have all been accepted. It is expected that Prince Chun will stay a fortnight in Berlin and then return to Italy, whence he will proceed to Belgium and England, going home by way of the United States and Japan.

Prince Chun is a high Chinese dignitary, but he would have been required by the Chinese custom to use the ceremony of the kowtow to Emperor William of Germany had not that monarch graciously waived it and consented to see the prince alone. This kowtow is a knocking of the forehead on the ground while kneeling, and is the ceremony of prostration required from persons who are admitted into the presence of the Chinese ruler. Emperor William's rank would necessitate the minister kneeling thrice and thrice knocking the forehead against the floor, this being the salute which, according to Chinese tradition, is the due of a great monarch.

## STRIKE SITUATION FAVORS TRUSTS

A Good Many Workers in All Parts of Pennsylvania Steel Districts are Returning to Work.

McKeesport, Pa., Sept. 4.—It is reported this morning that fully two-thirds of the old employees of the Demmer tin plate mill will return to work this evening or tomorrow morning under the protection of the sheriff and a force of deputies. Mayor Black has issued a proclamation to the strikers cautioning the men against violence.

Pittsburg, September 4.—Between three and four hundred men resumed work in the plant of the National Tube Works at McKeesport this morning. The return did not cause any excitement whatever. It is becoming a conviction here that the strike is about over and the belief is expressed that a full force at the Tube mill, comprising from six to seven thousand men, will be at work again on Monday.

Sympathetic Strike Over. Pittsburg, Pa., Sept. 4.—The indications point to the end of the sympathetic strike in the Pennsylvania works. This morning one hundred and fifty went to work in the mill getting things ready for resumption. Six hundred strikers will hold a meeting this afternoon to discuss the question of returning. It is believed they will decide in the affirmative.

Reply to Hickey's Statement. Amalgamated leaders in Pittsburg do not believe there will be any investigation of the charges made by Mr. Hickey at Milwaukee. Secretary Williams said the Amalgamated officials would not receive a committee if it were sent here to ask an investigation.

President Shafter, it is said, today received many endorsements of his course and encouragement to remain firm. The president himself is confident and professes to be entirely satisfied with the progress of the strike.

Leaders Hold a Conference. New York, September 4.—Samuel Gompers, John Mitchell, president of the mine workers, Harry White, president of the garment workers, and Ralph Easley, secretary of the National Civic Federation are said to have been in conference with Schwab in the latter's office this morning, but any knowledge of it is denied at trust headquarters.

Tragedy at Corning, N. Y. Corning, N. Y., Sept. 4.—Miles E. German, a carpenter of this place, shot his wife in the head with a revolver last night, inflicting wounds from which she died two hours later. He afterwards killed himself with the same weapon. Before shooting himself he fired at his mother-in-law, Mrs. A. D. Hollis, wounding her slightly in the head, and attempted to shoot his 6-year old girl but missed her. Just before killing himself German swallowed a dose of laudanum to make death certain. He is said to have been crazed by jealousy at seeing his wife in company with another man yesterday.

## GREAT LANDSLIDE NEAR BARABOO

Huge Mass Crashes Into a Valley—Thunderous Noise Was Heard for Miles—No Damage Done.

Baraboo, Wis., September 4.—With a rush and roar as of thunder, vast masses of rock, dirt and debris on top of East Morentom, a few miles distant from Baraboo, parted from the huge pile at nine o'clock last night and crashed down into the valley below, carrying along all trees, bowlders and cliffs in its path. The rumble and crash of the sliding mass could be heard for miles. Guests at the Cliff house awakened by the uproar rushed from their rooms in fright. The friction caused by the crashing mass of stone made a streak of blazing light that resembled the path of a meteor. The entire countryside was aroused, and this morning the path of the falling mass was the center of general interest. No lives were lost and no property destroyed.

## TWO WOMEN KILLED BY RAILROAD TRAIN

The Wife of Congressman S. S. Barney One of the Victims—Struck by Engine.

Port Washington, September 4.—Mrs. S. S. Barney, wife of Congressman Barney and Mrs. W. S. Ramsey, Sr., wife of a former state bank controller, were instantly killed by a Northwestern express train one mile south of here yesterday afternoon. They were riding in a single buggy. The horse was killed and the buggy demolished.

For over two hours the remains lay at the station at Port Washington. Their identification proved a tragic affair. After many had viewed the remains, W. H. Ramsey, Jr., who was about to take a train, was asked to see if he could recognize the bodies.

Mr. Ramsey stepped into the waiting-room where they lay covered with sheets. He picked up the covering upon the body of Mrs. Barney, but the remains were so terribly mangled he could not make out the features. He lifted the covering from over the body of Mrs. Ramsey, who lay with blanched face. He had looked upon the dead face of his mother.

Congressman Barney was trying a case before Judge Dick at the court house, when a messenger came breathlessly into the room and informed him of the tragedy.

## NEGRO IS SHOT AND BADLY BURNED

Large Mob in Alabama Wrecks Vengeance on the Assault of a Young White Girl.

Troy, Ala., September 4.—Bill Fournoy, alias Bill Hilliard, a negro charged with assaulting Miss Wilson at Chestnut Grove, was shot and his body burned by a mob near the scene of his crime yesterday.

Miss Wilson, who is sixteen or seventeen years of age and the daughter of Dr. Carroll, about twelve years of age, were on their way to school at Chestnut Grove, just across the line in Coffee county, when they were overtaken by the negro. He seized Miss Wilson and the little girl ran off. As she did so the negro fired his pistol at her but missed her. The little girl raised the alarm and soon a posse was in pursuit of the negro. When they reached the scene of the crime they found Miss Wilson unconscious and terribly bruised in the face and about the head.

The posse tracked the negro to his home where he was found in bed, saying he was sick. The little girl identified him, and was then taken out and shot and his body burned. Miss Wilson is in a precarious condition.

## ARTILLERYMEN TO SHOOT ON SEPT. 18

Competition Between Wisconsin and Minnesota Batteries Will Take Place at Lake City.

Madison, Wis., Sept. 4.—(Special)—The competition in marksmanship between the artillerymen of Wisconsin and Minnesota will take place at Lake City, Minn., beginning September 18. The regulations agreed to by the captain of each battery, were approved by Adjutant General Boardman today, and forwarded to the Minnesota Adjutant General for his approval. There will be seven marks in each team and seventy shots will be fired on each side, at a man target 2,500 yards distant. Major B. H. Dalley of Milwaukee, former captain of the Wisconsin battery will be the referee.

## Boers Repudiate Krause

Amsterdam, September 4.—The Boers here are unable to explain the arrest of Dr. Krause, ex-governor of Johannesburg, on the charge of high treason. They have always regarded him as pro-English and have had nothing to do with him since he surrendered Johannesburg.

W. E. Buck, of Louisville, Ky., a former Janesville boy is in the city renewing former acquaintances.

## DUEL OF TWO BULL BUFFALOES; FIERCE FIGHT FOR LEADERSHIP

Antonio's Throne is Lost—Brown Beauty Meets His Rival and Comes Off Victorious—Bonita, the Prize at Stake, Fights Off Peacemakers.

New York, September 4.—In the presence of a thousand spectators two bull buffaloes—Brown Beauty and Antonio—fought a bloody battle in the range of the zoological park in the Bronx. Antonio fell desperately wounded and Brown Beauty is king of the herd. It was a struggle of the giants, and while it lasted the other buffaloes with one exception stood at a respectful distance to watch the combat. The exception was Bonita, the mate of Brown Beauty. Fearing for her lord and master she tried to aid him in the fight, but he did not need her assistance.

To those who know the ways of the buffalo this struggle was not unexpected. In the park are two full grown buffaloes and two calves. Their range is the southeastern part of the zoological garden. Among the buffaloes, as among all of the animal families there is one king. Brown Beauty has been king, but Antonio aspired to the throne.

It was two o'clock yesterday afternoon that the encounter began. The two bulls, massive shaggy monsters, bellowing their defiance with all the energy that their lungs permitted, withdrew from the herd and with tails flailing, heads bobbing and sides heaving, cantered to an elevated plain near the center of the enclosure.

Then pawing the earth until they had raised clouds of dust they charged. The sound of the crash, as the two big bulls came together could be heard a long distance. Their

horns locked and they bent their great backs in a mighty effort to force each other back or to get an opening for another move. The bellowing of the bulls as they struggled was heard a half mile away. The other animals took up the cry and the park resounded with the growls of the beasts.

While the keepers were engaged in trying to separate them a sudden turn in the tide of battle came between the bulls. The two big fellows had backed from each other and prepared for a charge. Brown Beauty was the more agile and Antonio was blowing hard. By a quick turn of his head Brown Beauty impaled his rival one of his horns entering Antonio's side and sinking deep.

Slowly but steadily Antonio was forced back. Then, weak and suffering, he fell. As Brown Beauty drew off to charge again Antonio wheeled and met his enemy bravely, but the force of the other's weight knocked the wounded bull down. He rolled over, not once alone, but twice. He had been driven to a declivity, and he rolled the second time he tumbled down in the dust and dirt below. Brown Beauty was king.

Out of the mouth of the victorious bull a great bellow of triumph proclaimed the end of the combat. Then he pawed the earth again and seemed to lock for other rivals who might care to engage him in battle. The crowd of men and women without the enclosure cheered. They had seen a struggle of giants.

## LATE CORN SHOWS BETTER CONDITION

Weather of Last Week Was Unfavorable for Cotton—Good Yield of Spring Wheat.

Washington, D. C., September 4.—The weekly crop report issued today by the agricultural department gives the following general summary of the conditions throughout the country:

While the weather conditions of the week ending September 2, 1901, have been generally favorable to a majority of the districts, heavy rains (in some places excessive) have injured the crops and retarded work in portions of the South Atlantic and Gulf states and dry and hot weather has been unfavorable in the Missouri and upper Mississippi valleys and on the North Pacific coast. Extreme heat and drought in localities of Oklahoma and Texas have also been detrimental to the crops. Cool weather has retarded the maturing and drying of fruit in California and light frosts occurred in Nevada.

Late corn continues to show improvement, although it was injured by drought and heat in portions of Kansas; has suffered further decline in Missouri and needs rain in Nevada. In Iowa corn is maturing rapidly and the cutting of early planted corn is general in all of the sections of that state and Missouri, and is progressing rapidly in Kansas.

Favorable reports concerning tobacco are received from all sections except Maryland, where it is not curing satisfactorily, and Virginia, where the yield is variable. Cutting is general and the bulk of the crop is in shed in Wisconsin.

The condition of apples still continues unpromising in nearly all sections. For Wisconsin—Corn maturing rapidly, some of the fields in the southern section in shock, bulk of crop will be safe from frost by September 15; late potatoes somewhat improved, but crop generally light and quality poor; bulk of tobacco crop in shed; pastures short.

## GLAD TO GET ISLANDS.

Washington Officials Pleased Over Deal with Denmark.

Washington, Sept. 4.—Officials are well pleased over the news that Denmark has decided to sell to the United States the Danish West Indies. The state department expects to receive an official acceptance of the offer to buy very soon; then it will be up to congress to ratify the deal before the \$3,500,000 is paid to King Christian.

When the money has been paid over to the European country the government will begin to establish a great naval base on the newly acquired territory. This will be maintained for the protection of interests in the isthmus. The real value of the islands lies in the fact that they are the key from a military and naval standpoint, to the Caribbean Sea and the Gulf of Mexico. In the event of the building of a canal through the isthmus, either at Panama or Nicaragua, by the United States, a naval base at this point would be almost a necessity.

The Danish ministry has been considering the offer made by the government some time. Delay in the matter has been caused by a few capitalists of both countries who made an effort to get options on the islands from the government in Copenhagen and then sell out to the United States at a large profit.

## PECULIAR FACTS ON SCHOOL TAXES

Forty-One Counties in Wisconsin Receive \$120,000 More Money Than They Pay Out.

Madison, Wis., Sept. 4.—[Special] There are 41 counties in Wisconsin which receive more money, a total of nearly \$120,000, from the apportionment of the school fund, than they pay into the same fund through the one-mill tax, which is levied for school purposes. The remaining 29 counties, mainly in the southern portion of the state, pay the same amount in excess of what they receive.

The explanation of this is that the school money is distributed according to the number of children of school age in each county, while the one mill tax is collected on the basis of property valuation. Milwaukee county heads the list of counties which lose by this system, paying \$47,688.57 more than it receives, while Marathon county gets the largest benefit, receiving about \$7,500 more than it pays. Douglas, a northern county pays \$3,218.22 more than it receives; Winnebago pays \$2,975.54 more; Rock, \$6,657.86 more; Walworth pays \$9,323.31; Dane, \$8,393.

## METHODISTS MEET IN LONDON TODAY

London, September 4.—The Ecumenical Methodist conference opened this morning in Wesley's chapel. Bishop Hartwell, missionary bishop of Africa, made the prayer. There is a good attendance. Bishop Galloway of Jackson, Miss., preached an eloquent sermon. Friendly messages were received from the Archbishop of Canterbury and the Bishop of London. Three hundred American delegates are present.

## JAPAN ENRAGED AGAINST AMERICA

Yokohama, September 4.—Japan is stirred by reports of the outrageous treatment of Japanese women by the quarantine officials at Honolulu. The discrimination against the Japanese women has cut the national pride to the quick. The newspapers contain daily diatribes against American institutions.

## FRANCE WILL KEEP GRIP ON TURKEY

Paris, September 4.—The French government is by no means so fully occupied with the preparations for the festivities incident to the visit of the czar as to ignore the dispute with Turkey. In a few days if Turkey does not give the satisfaction demanded further measures will be taken in the matter, although efforts will be made to avoid a crisis until after the czar's visit.

## POSSE OUT AFTER TRAIN ROBBERS

Toxarkana, September 4.—A posse of fifty men left this morning to intercept the six robbers who held up the Cotton Belt train at Elyan last night. The outlaws are known to be in Sulphur River bottoms heading for Louisiana. The railroad officials still refuse to make public the amount they secured but it is thought to reach into the thousands. The passengers were unharmed.

## BIG BET ON THE RACE

Pittsburg Syndicate Places \$250,000 Against \$150,000 That the Shamrock Wins.

Pittsburg, Pa., Sept. 4.—The \$400,000 bet between an English syndicate represented by Walter J. Kingsley of London and a group of Pittsburgers, represented by William L. Mustin, was finally arranged yesterday afternoon. The money was placed in the hands of the st. alokelzxxxxxxxxxxxxx hands of the stake holder, Mr. Kingsley turning over \$150,000 in British Bank notes and Mr. Mustin giving a certified check for \$250,000.

Mustin met Kingsley in Pittsburg and put him in communication with his principals. Mr. Kingsley on his part agreed to accept a certified check for the full amount of the American side of the wager. A Pittsburg, prominent in financial circles, was selected as stake holder, but at his request his name is withheld. The stake is to be paid within one week of the concluding race in New York City. The wager is simply \$100,000 to \$250,000 that Shamrock lifts the cup. There are no conditions as to accident.

## SAMPSON-SCHLEY COURT OF INQUIRY

Sampson Although Ill, Intends to Go to Washington to Defend His West India Record.

Washington, D. C., September 4.—Word has been received at the navy department, indirectly from Admiral Sampson, to the effect that he intends to go to Washington to attend the Schley court of inquiry if it is by any means possible. An intimate friend of the Admiral is authority for the statement that Sampson is determined to be present to defend his record during the West Indian campaign. Although he recognizes that he has but little strength to undergo the ordeal of a cross examination by the court, he intends to make the effort, even if it entails a complete collapse afterwards.

There is no truth in the report that Admiral Schley's counsel intends to make an appeal to Secretary Long to settle the question of Admiral Howison's competency to serve as a member of the court before the sessions begin in order to save time. The question will be referred to the court itself for determination.

## NEW CANDIDATE FOR GOVERNOR

Name of Walter Alexander of Wausau Sprung as a Possible Leader for Stalwarts.

Milwaukee, Wis., September 4.—The latest to be sprung as a possible stalwart republican for governor is Walter Alexander of Wausau. There is no question but that Mr. Alexander would make a good candidate. He is a partner of Congressman Stewart in the lumber business and has hosts of friends in the northern part of the state. The hardest handicap he would have to carry would be his lack of acquaintance in the southern portion of the state.

## State Fair Next Week.

Next week the state fair, Secretary True of the state board of agriculture moved his office out to the fair grounds today. Secretary True is certain that Governor La Follette will be able to attend the fair and address the crowds, probably on Wednesday, the day when General MacArthur will be on the grounds, though the information from Madison is not of a kind to bear out Mr. True's statement. The exhibit of live stock this year will surpass any ever seen in the state, while the racing events will be of the kind to attract all lovers of good racing.

## CROWN PRINCE WILL COME

Emperor William Arranges a Trip To America for His Son

London, September 4.—The crown prince of Prussia will visit the United States in 1903. Emperor William has mapped out a tour of the world for his son, and he wishes that the young man shall see as much of other countries as possible. The prospect of a visit to America is equally pleasing to the future emperor. He is charmed with the American women he has met in England.

## Scotfield's Famous Cow

Oconto, Wis., September 4.—The Oconto county fair opened today. The display of fruits and vegetables is the largest in years. Today Gov. Scofield's famous cow was escorted to the grounds by the band. Everybody in Oconto takes pride in the cow because it is believed that she assisted in the second victory of Mr. Scofield, an old and respected citizen of this city.

## Lord Hope Wants Divorce

London, September 4.—The announcement is made today that Lord Hope, the husband of May Yohé, the actress, is now in the Orient with Captain Strong. He has instructed his attorneys to begin proceedings for divorce.

## Absolve Train Crew

Kallsell, Mont., September 4.—The coroner's jury in the Nyack wreck case returned a verdict absolving the train crew from responsibility for the late wreck.

Mrs. Anna M. Hanchett of Madison is the guest of her daughters, Mrs. D. K. Jeffris and Mrs. F. H. Jackman.

## LARGE EXHIBIT IN LIVE STOCK

County Fair at Evansville Promises To Be a Record Breaker.

## CROWDS ARE LARGE

Display in the Poultry Department is Equal to That of the State Fair.

## FINE FARM PRODUCTS

Evansville, Wis., September 4.—The crowd at the fair grounds yesterday was in every way satisfactory to the management, fully 3,000 people were present. The exhibits are all in place and present a very creditable appearance.

The secretary Mr. Gillies stated that there was the largest live stock exhibit ever shown on the Evansville fair grounds. The entries came in so fast and in such prodigious bunches yesterday morning that it was almost impossible to get everything in shape but with the large force of help they were enabled by evening to have everything in good shape.

In the floral art hall under the supervision of Mrs. Campbell and Mrs. Pugh the display is large and some of the work is remarkably fine and a great deal of interest is centered there.

The grounds have the usual attractions for the small chaps in the way of balloons, watermelons, candy, lemonade, pop, cracker jacks, etc., and if the older folks are not enjoying it appearances are deceiving. Altogether the fair is an assured success and the managers are highly gratified over the outlook.

Notes of the Fair. The display in the poultry department is equal to that of the state fair. Besides chickens of all sizes and colors, ducks, geese and turkeys there are pigeons, white rats, guinea pigs, ferrets and Belgian hares.

Farm products have suffered much on account of the drought, yet there are some exceptionally fine exhibits of corn, oats, potatoes and other vegetables and all things considered the agricultural hall shows up well.

The special attractions are good. They consist of acrobatic feats, high dive from a 100-foot tower, black wire performers and balloon ascensions while Earle Quake Pilot, the Guileless Wonder, gives exhibitions each afternoon.

Mabel Hall with her celebrated horse King, was highly applauded by the crowd in giving the cake-walk and other steps.

Christie Ryan, the largest policeman on the ground, four feet in height has charge of the gate leading across the track.

The Wisconsin Carriage company of Janesville have a fine display of vehicles under the direction of H. Fellows & Sons.

The speed program for the day consisted of two races—Special half-mile race, purse \$100, and three minute pace, purse \$250.

Letty captured the special race in three straight heats. Following is the summary. Lady B, 3-3-3; Mazy, 4-2-2; Betty, 1-1-1; Souky, 5-4-4; Chas. Britton, 4-5-5; Lady C, 6-6-6. Time, 1:17 1-2, 1:17 1-4, 1:18.

The 3-minute pace seemed easy for Cherry Valley, who took it in three straight heats: Nellie Gray, 4-5-5; Sphinx Maid, 3-4-4; Cherry Valley, 1-1-1; G. C., 5-2-3; Dr. L., 2-3-2. Time 2:25, 2:26 3-4, 2:24.

## SHE WAS FAMOUS AS A MISSIONARY

Death of Miss Isabella Thoburn in Lucknow, India, from Cholera—Sister of a Bishop.

Lucknow, India, September 4.—Miss Isabella Thoburn, founder of the Lal Bagh School and of the Lucknow Women's college, the first Asiatic for women, died today of cholera.

Miss Thoburn was one of the most widely known members of the Woman's foreign missionary society of the Methodist Episcopal church. A sister of Bishop Thoburn, she belonged to a family of religious traditions, and all but a few years of her life were spent in the active service of the church, of which she was so conspicuous an ornament. She was born near St. Clairsville, O., on March 29, 1840. Inheriting from her Scotch ancestors the sturdy characteristics of that race, she was most proficient in her chosen profession of missionary. She was the very first woman to go forth to spread the Gospel for the Woman's Foreign Missionary society and for actress, is now in the Orient with upward of thirty years she labored with untiring effort in that cause.

## SAFEGUARDS FOR THE PRESIDENT

Buffalo, September 4.—Every care has been taken to safeguard President McKinley when he comes here tomorrow, from the time he arrives in the city until he departs he will never be without a guard of secret service men, police or soldiers.

GOOD WORDS SPOKEN FOR TOBACCO

Smoking Protects Against Microbes—What Physicians Have Said in Favor of the Weed.

Unbiased minds can not deny that there are certain benefits in the moderate use of tobacco. Almost every dentist acknowledges that it has a beneficial effect upon the teeth, an action attributed to the neutralizing alkalinity of the smoke and to the antiseptic qualities of nicotine and pyridine, which destroy the vitality of microbes which would otherwise thrive and multiply in the mouth. Claude Bernard further believes that the minute quantity of prussic acid in tobacco is evaporated and contributes to a sepsis in the mouth.

Smoking certainly relieves the toothache and Dr. Hepburn affirms that decay of the teeth in smokers is slow and unnoticeable, due to a slow, gradual mortification of the pulp of the teeth. Moreover, the solid particles of the smoke are deposited upon the depressions in the enamel and thus preserve the teeth from decay.

In spite of this, however, when the mucous membrane of the mouth is irritated it is necessary to abstain from smoking, otherwise the affection will be exaggerated, but it will often suffice if the irritation is decreased by the use of less pungent tobacco and by cooling the smoke. Smoking tobacco allays certain forms of gastralgia and blunts the urgent desire for food common in certain nervous cases, and on the other hand, its moderate use after meals stimulates torpid digestion. This is due, technically speaking, to an excitation of the salivary glands, which leads to a similar excitation of the gastro-intestinal glands. If one abuses tobacco this excitation just mentioned is exaggerated and a catarrh of the stomach ensues, characterized by lack of appetite, flatulence, cramps, acidity, nausea and even vomiting. Still, abuse of tobacco has been recommended as a medicinal treatment. Immermann, for example, thinks it ought to be recommended in the treatment of obesity because it lessens the cravings of hunger and thirst, and thus allows the use of a limited diet, but assuredly in this case the remedy is worse than the disease.

Smoking tobacco has been recommended in certain nervous conditions of the digestive tract and organs. Dujardin-Beaumetz prescribed it in a case of hysteria, complicated by persistent vomiting, ordering the patient to smoke a cigarette after each meal. The vomiting ceased, but always returned if the cigarette was omitted. Dr. Gros also recommended the same treatment in cases of otherwise uncontrollable vomiting.

As for gastric affections attributed to the use of tobacco, they are more often due to alcohol, a frequent accompaniment of the smoking habit, but not necessarily so, for many excessive smokers are exemplary temperance men.

A philosopher has pretended that a crime is never committed by a person with a cigar in his mouth, and more than that, that a person while smoking is seldom capable of bad action. This is because tobacco renders one gentle and resigned, it qui-

It would require 72,000 farm wagons to carry it. Working twelve hours a day and counting \$75 a minute, one man could not reckon the J. D. Rockefeller estate of eighty years hence short of 541 years.

Andrew Carnegie's estate could, in eighty years, finance seven billion-dollar steel trusts and still have \$500,000,000 left for libraries.

Antoinette as these aggregates appear, the estimated rate of increase is very much less than the pace at which these fortunes have grown to their present size. It is the stride at which they would move without the touch of whip or spur.

Invested in government or municipal bonds, undistributed by speculative impulses, uninfluenced by an ounce of brain or any muscle whatever, this is what the ten estates would attain to in one long life.

Just how great a fortune grows makes a wonderful story. It may be compared to the life history of a polyp down under the sea. It grows in an ever widening circle of accretion.

Roughly speaking, the great American fortunes of today have grown and are growing in four kinds of investments—

Industrials. Railroads. Real estate. Mines.

Under all these the fire of speculation burns continually, so that the commercial world bubbles and roars in the heat like a veritable witch's caldron.

The vast power of speculation, and speculation that can hit with rare precision on the winning side of the market, belongs to every great fortune. It may be used or it may not be used, but it is there.

**TOBACCO PRICES ARE STIFFENING UP**

A brisk season has at last opened in the market. The number of buyers here from the west is almost unprecedented. And while everybody has not as yet found what he wants, and particularly at the prices he would like to have it, some pretty good transactions were consummated during the week. The demand for the present is chiefly for New England leaf. The quality of domestic wrapper leaf consumed now is simply enormous. The jobber must have it not only to do business with but also to get some profit out of it. And he must have Connecticut seconds, the more so this year, because the binder supply will be short for two years. The Wisconsin supply was shortened one-third by damage, another third the A. C. C. has gobbled up, and the third in the hands of individual packers will be still further shortened by the further damage developed in the sweat. The country is short of cigar leaf of every type, while the cigar industry is steadily increasing its output from month to month. All these facts are known to both the buyer and the seller, and prices are stiffened under them. Buyers who naturally wish to obtain the best bargains may fight shy for the moment, but they will have to give in or get out of the business.

The trade in New England leaf during the week amounted to about 3,000 boxes, all Havana seed, one house alone selling in the aggregate 800 boxes. Running lots command about 25c, a little more or less according to the packing. Wrappers average 60c, and seconds from 25c to 28c. Very little of other types is sampled. Only a casual attempt has been made to sample the Wisconsin, on which the next onslaught will be made. The Onondaga that is sampled shows up exceedingly well; several hundred cases were taken at the first showing.

SALVATION BOY STIRS AUDIENCE

Youth of Twenty-Two Years Has a Wonderfully High Baritone Voice.

With the Salvation Army delegates who are now in the city is a youth of 22 years who possesses a wonderfully high baritone voice. This young man is Captain W. R. Mabee of New York City. His voice is strong and clear and is the most pleasing. Capt. Mabee rendered several solos last evening at the corner of Main and Milwaukee streets which held the close attention of fully 1,000 people for over an hour. Capt. Mabee has been a Salvationist for over six years.

**BIG FREEPORT FAIR.**

Northern Illinois Agricultural Association Have Plans Complete.

The Stephenson County Fair, which is scheduled for September 10, 11, 12 and 13, at Taylor's Park, Freeport, will be equal to and probably better than anything yet attempted by the Northern Illinois Agricultural Association. The racing feature of this fair has always been one of the strongest points and yet no expense has been spared to have this event good in every particular. The best horses in the country are entered and the purses are large. Every department is filled as only an association with the strong reputation such as the Northern Illinois have can secure. A great number of special attractions have been secured so that each day will be equal in point of interest. Reduced rates will be made on all the railroads and from present talk more Rock county people than ever before will attend.

REIGN OF THE AMERICAN BILLIONAIRE

Natural Growth of the Ten Greatest Fortunes in America—Interesting Estimates by Henry Clews.

How will the world adjust itself to the reign of the American billionaire? This is the stupendous question suggested in the estimate by Henry Clews of the natural growth of the ten greatest fortunes in America in eighty years. Mr. Clews' figures are based on a casual statement recently made by John E. Parsons, attorney of the late Henry Bradley Plant, that the Plant estate, which is now valued at \$20,000,000, will be worth \$160,000,000 in sixty years and \$320,000,000 in eighty years.

Mr. Clews estimates that, valued today at \$1,525,000,000, these ten fortunes on the basis used in the Plant estate, will in eighty years reach the astounding and wholly inconceivable aggregate of \$36,402,896,000—and this not by speculation or any superficial increase in values, but by the gradual accumulation of wealth by wealth at the apparently insignificant rate of 4 per cent. a year.

This means that these ten fortunes would in eighty years be worth \$12,000,000,000 (twelve billion dollars) more than all the gold and silver in the world.

It means that they would be sufficient to buy up all the food in the United States, at the present prices and rate of production, for a period of forty years.

It means that these ten estates would own in eighty years enough of the values of the world to give every man, woman and child in existence \$15—or twice as much as they would have today were all the wealth in the world distributed equally among them.

With this stupendous power in the control of ten estates—possibly in the control of one man chosen to conduct the affairs of the ten estates on a trust basis—what would happen to the business and industrial interests of the world?

With a world supply of precious metals falling twelve billion dollars short of an ability to represent the fortunes of ten American estates, what changes in finance and currency could be devised to meet the unparalleled condition?

With a one-year's food supply of the greatest national granary on the earth representing only one-fourth of the purchasing power of the ten estates, what new and now undreamed of plans might be necessary to protect the food of the world from monopoly control?

These are some of the questions be-

which are raised for general consideration by the astounding estimates which Mr. Henry Clews has made.

Henry Bradley Plant, late president of the Plant system of railway and steamship lines, left an estate worth \$20,000,000.

By the terms of a remarkable will Mr. Plant placed his vast estate in trust for a period of sixty to eighty years.

The fortune remains intact until a son of his infant grandson shall have reached the age of twenty-one years.

In a suit now being brought to set aside the will Attorney John E. Parsons recently made the following startling statement:

"I have calculated that the Plant fortune in sixty years will have increased in value to \$160,000,000. In eighty years it will be worth \$320,000,000."

Mr. Parsons' estimate is placed upon an uninterrupted increase of 4 per cent. per annum. Calculated at the same steady rate of increase, the ten greatest American fortunes will according to Henry Clews, present the astounding totals of \$16,266,264,000 at the end of sixty years and \$36,402,896,000 at the end of eighty years.

These figures represent a sum so stupendous that the human mind cannot comprehend it. They mean, for example, that eighty years from now the world's supply of gold and silver will fall \$12,000,000,000 short of enough to measure the wealth of these ten estates.

The world's supply of precious metals increases at the uniform rate of \$200,000,000 a year. All the accumulated store of 5,000 years, added to the product of eighty years to come, will not pay the toll of the ten richest men.

In eighty years more these combined fortunes would amount to \$18 per capita for every man, woman and child in existence. The per capita is now \$8.79.

If Adam had had ten sons and they had set to work at \$2 a day to earn this gigantic sum, each would have 5,895,000 years of toil before him. This sum would buy and store up the entire food crop of the United States for forty years.

In gold it would weigh 95,812,500 pounds. To move it 2,427 freight cars would be required.

## MR. AND MRS. LOUIS F. KNIPP CELEBRATE WEDDING ANNIVERSARY

One of the Most Pleasant Social Gatherings Ever  
Held in This City Given Last Night.

Mr. and Mrs. Louis F. Knipp acted as host and hostess last evening at East Side Odd Fellows' hall at one of the most pleasant social gatherings ever held in this city.

The party was given by Mr. and Mrs. Knipp in honor of their twenty-fifth wedding anniversary. About three hundred invitations to the celebration had been issued and over two hundred and fifty guests responded and helped them celebrate in a fitting manner.

Twenty-five years ago at Brandon, Washington county in this state Mr. and Mrs. Knipp were married. The twenty-five years since that happy day have passed quickly away, leaving behind them prosperity and happiness for the worthy couple. In 1882 Mr. Knipp came to Janesville and engaged in the brewing business at his present location. Year by year his business increased and his circle of friends and acquaintances grew larger and larger until at present he is one of the best known business men of the city. He has by strict attention to business and fair dealing with his customers built up a trade that he may well feel proud of. His wife has over been a strong support to him in his business ventures and much credit is due her for their present happy surroundings.

The guests bidden to the anniversary celebration began arriving about 7:30 o'clock. They were received at the reception landing by the Misses Anna and Laura Knipp, daughters of the host and hostess and directed to the reception rooms, where Mr. and Mrs. Knipp welcomed their friends to share their hospitality.

The dancing hall on the third floor had been artistically decorated with plants and foliage, and the orchestra platform resembled a growing bank of green, behind which Smith's orchestra played enchanting music. Sherbet and wafers were furnished the guests on the dancing floor at small tables arranged in one corner.

Mr. and Mrs. Knipp were the happiest couple in the large gathering.

and ever had a watchful eye for the comfort of their guests. It began at 7:30 o'clock and lasted until a late hour, the tables being filled many times before all of the 250 guests had eaten.

A pink carnation and a napkin with the following printed in silver bronze was placed at each plate. "Our twenty-fifth anniversary, Mr. and Mrs. Louis F. Knipp, Tuesday evening, September 3rd, 1901, Janesville, Wisconsin. The menu was as follows:

Rolls,  
Saratoga Chips, Ham,  
Tongues, Pickles, Salted Almonds,  
Coffee.  
Sautéed Wafers,  
Chicken Salad, Olives, Potato Salad,  
Bread and Butter Sandwiches,  
Neapolitan Ice Cream,  
Devil's Food, Angel's Food,  
Assorted Wafers, Candy Patties.

One of the lower rooms was set apart where the gentlemen could enjoy a smoke or a game of cards at their leisure. Nothing was left undone by the host and hostess to secure the pleasure of their guests and their efforts were ably seconded by their daughters, Misses Anna and Laura, and their son, William Knipp.

Mr. and Mrs. Knipp were the recipients of many beautiful and costly presents from their guests, which will always be treasured as remembrances of one of the happiest events of their lives. The festivities continued until a late hour and when they finally ended the guests extended their congratulations to Mr. and Mrs. Knipp and wished them many more happy wedding anniversaries.

Among those from out of the city who were present were the following: Mr. and Mrs. Ernest Klunkerdt, Racine; Mr. and Mrs. Henry Dittmar, Mr. and Mrs. John Seifert, Miss Emma Freudenberg, Miss Alma Smith, Miss Anna Selgel, Milwaukee.

## NEWS AND GOSSIP OF BADGER STATE

Madison—Secretary Wilson of the United States Agricultural department has offered Prof. F. B. King of the State University a position at Washington with a salary of \$3,500. It is not known whether the well known agricultural man will accept, or what the nature of the proposition is.

Madison—Thursday the veterans of Dane county will hold a reunion at Madison, with a camp fire in the capitol park. Col. Wm. F. Vilas, Gen. Geo. E. Bryant, Col. E. W. Keyes, Pudge W. P. Lyon and Col. E. B. Gray will be among the speakers.

La Crosse—Four men who have been camping near this city and living off stolen corn and other provisions secured in a similar manner and during the past week have committed a series of daring burglaries, got into a fight with a number of citizens, but got away. A posse will be organized to get them.

Milladore—Mrs. C. F. Cotesworth was scared by a noise near her house early Saturday morning and found it was caused by a cub bear. She returned with a shotgun and found a whole family of bears there. She succeeded in killing the male bear, which weighed 225 pounds, dressed.

Beaver Dam—The Chicago conference of the German Methodist Episcopal church to be held here Sept. 26, will be attended by 100.

Rhineland—A local real estate man has completed a transaction by which a Chicago concern comes into possession of 6,000 acres of valuable timber land in Minnesota. The tract contains white and red pine.

Mauston—L. I. Alsbacher has successfully planted hops between rows of tobacco, the experiment resulting wonderfully well for both crops.

Platteville—Richard Jardeau is fatally ill at his home here.

## LATEST FOREIGN NEWS.

No Doctors in Labrador.

St. John's, N. F., Sept. 4.—Dr. Grenfell, superintendent of the mission to deep-sea fishermen, now operating in Labrador, publishes a harrowing article exposing the medical deficiencies of Labrador. He asserts that at Brador he found an imbecile girl, 9 years of age, tied in dog harness when her relatives were not able to watch her. He found people dying of cancer, dropsy and scurvy, who had never seen a doctor. He found no hospital near, no regular steam service to Gaspe or Quebec, and no means by which the people could procure medical or surgical treatment. He urges the Dominion government to take prompt steps to remedy these conditions.

Cape Dutch Are Divided.

London, Sept. 4.—A dispatch from Middelburg to the Times says the approach of mid-September has had the effect of drawing a sharp line between the two parties among Cape Colony Dutch. A few of them have joined the fighting burghers in consequence of exasperation at Lord Kitchener's late proclamation, but others have thrown in their lot with the British. Last week the British authorities received two offers on the part of Dutch inhabitants of Cape Colony to raise special corps to hunt for Boer rebels. Scheepers' recent dash into the southwest corner of Cape Colony is regarded as unimportant. His 30 followers are mostly boys and half his horses are in poor condition.

Irishman May be a King.

Paris, Sept. 4.—The news reaches Paris that Queen Draga has decided upon a successor to the Serbian throne in the event that she should die without offspring. The queen's choice is a young Irish officer of the household, although his name has a Russian termination. The probable future king is Lieutenant Nicholas Lanevitz. He is said to be a dashing young fellow, with all the Irishman's urbanity and liking for the fair sex. The young lieutenant is descended from the Lanes of Roscommon.

Sham Battle at Victoria, B. C.

Victoria, B. C., Sept. 4.—In the sham battle here the Sixth Rifles of Vancouver, under Col. Worsnop, and assisted by the Royal Engineers, under Lieut. Elliott, defended the Red Hill fortifications against an attack by the Royal navy, under Capt. Casement of her majesty's ship Amphion, who landed several miles below the fort from the torpedo destroyer Virago. The defenders were driven back some miles, but the attacking party failed to penetrate their screen and reach the fort.

Prince Chun Is Kaiser's Guest.

Potsdam, Sept. 4.—Prince Chun, who is at the head of the Chinese expatriate mission to Germany, which will apologize for the murder of Baron von Ketteler, slain during the Boxer rising, arrived here at 4:30 p. m. with his suite of twenty persons. The prince looks like a child. He was received on behalf of the Kaiser by General von Moltke, the commandant at Potsdam, the chief of police and several subordinates. Then he entered a carriage drawn by a pair of horses and was driven to the Orangery.

Tallest Soldier to Wed.

London, Sept. 4.—The September wedding list includes one of the show-

iest figures of Queen Victoria's jubilee, Capt. Oswald Ames, who, by virtue of being the tallest man in the British army, led the famous procession. He will marry Violet Dorotnea Cecil, a cousin of the marquess of Exeter and Lord Salisbury.

## Contagious Blood Poison

There is no poison so highly contagious, so deceptive and so destructive. Don't be too sure you are cured because all external signs of the disease have disappeared, and the doctor says you are well. Many persons have been dosed with Mercury and Potash for months or years, and pronounced cured—to realize when too late that the disease was only covered up—

**Like Bogies Like.** driven from the surface to break out again, and to their sorrow and mortification find those nearest and dearest to them have been infected by this loathsome disease, for no other poison is so surely transmitted from parent to child as this. Often a bad case of Rheumatism, Catarrh, Scrofula or severe skin disease, an old sore or ulcer developing in middle life, can be traced to blood poison contracted in early

## DISSATISFIED LABOR.

The strike of the Amalgamated association, that has commanded so much attention during the past month, presents one of the most forceful examples of dissatisfied labor on record.

It is an open question whether strikes are ever justifiable. There are times when certain industries may not pay a wage scale that is in keeping with the profits and at such times strikes command the sympathy of public sentiment, but these occasions are largely the exception.

As a rule employers pay fair compensation. This has been especially true during the past three years, when common, as well as skilled, labor has been in active demand.

The strike of the Amalgamated association, however, is not for shorter hours, or increased wages. The men engaged in it were satisfied with both. The cause for it is simply an attempt to enforce an unreasonable demand for recognition, and the public go generally understand it that no sympathy is expressed.

There is a principle involved, that the steel corporation, or any other large employer of labor, cannot afford to sacrifice. It is more vital than the question of whether certain labor unions shall be recognized at the expense of other skilled labor.

It strikes at the foundation, and if successful means the dictation of capital and employers by an organization that is not only irresponsible, but has no regard for the sacredness of contracts or business obligations, as was recently demonstrated at Bay View. The verdict of all fair minded people is that the strike should fail, as it is bound to do.

If there was ever a time in the history of the country when labor of every class should be contented and happy, it is now.

If there was ever a time when labor was blessed with a golden opportunity to work out a destiny that means independence and a place for itself in the ranks of capital, it is now.

If there was ever a time when the opportunities of life were abundant, and when capital stood with open hand, inviting labor to share in its work and enjoy the fruits of honest and intelligent effort, it is now.

If there was ever a time when the labor agitator and walking delegate should be colonized and banished from the face of American soil, it is now.

The country is prosperous and happy. Labor shares in the general prosperity and happiness, and contributes largely to both. If let alone, as it is in many departments, there would be no visions of discontent or unrest.

This is a nation of workers, and the intelligence of American labor recognizes the fact. It lacks the disturbing element of socialism or anarchy, to any alarming extent, and is comparatively free from class or caste distinctions.

The active capital of the country is very largely in the hands of self-made men, who worked their way through the ranks of labor to independence.

Opportunities for American labor are better than ever before, and the individual workman is coming to realize that personal success is worth more than loyalty to an irresponsible union.

## THE MODERN REFORMER.

There are a few people in the world who imagine that they have a mission peculiar to themselves, and all the energies they possess are bent on its accomplishment.

Prominent among this class is the modern reformer, who assumes the self-appointed task of revolutionizing society and purging it of real or imaginary ills.

If the trend of thought is religious, then the church becomes the scene of activity. A self-righteous standard is established and the "holier than thou" doctrine is vigorously asserted. If a sufficient number of this disturbing element get together in any individual church, it means ruin to the organization.

If temperance is taken up as the hobby, fanaticism develops rapidly and leaders of the St. John and Carrie Nation stripe become models of all that is good in temperance work. State and national prohibition, both theoretical and impractical, is advocated, and people who do not endorse the movement are denounced in vigorous terms. People are excusable for denouncing the erratic prohibition temperance reformer as a crank.

If the disease breaks out in political circles, as it frequently does, there is no limit to its virulence, and it sometimes becomes epidemic. A man like Debs discovers that labor is oppressed, and capital unequally distributed. The doctrine is popular and speedily obtains a following. Mr. Bryan rides into popularity on a wave of enthusiasm created by his ability to champion a fifty cent dollar and 6,000,000 voters flock to his standard.

A young man comes out of college with his head full of theories. He stands on a pinnacle so exalted that he is able to take in at a glance all the weaknesses of social and political life. To his distorted vision all political parties are corrupt and all leaders the willing servants of machines. The dear people are being deprived of their rights and the whole structure of self-government needs reconstructing.

He is the one and only Moses to which has been revealed the wisdom for which the people are suffering, and he starts out on a mission of reform and becomes a sulkier in his tent if people do not fall into line at every new turn of the wheel.

This country hasn't very much room for the modern reformer in any department of its busy life. It has no time to theorize and but little patience with theoretical leaders. It is the best governed country that the sun shines upon, and it will continue to improve by slow and conservative methods in spite of the disturbing elements that annoy it.

With Spooner of Wisconsin, Shaw of Iowa, Hanna of Ohio, and Roosevelt of New York, as presidential candidates, there is no end of good republican timber for the next campaign. With due deference to the other gentlemen, Wisconsin places Spooner at the head.

The railroad case has gone to the supreme court and is on the calendar for early decision. The able aldermen and the litigant citizens will have an opportunity to provide for the costs before the close of the year.

The councils of Edgerton and Stoughton held a joint meeting to consider the new electric road franchise and appointed a joint committee to act in concert.

Ex-President Cleveland has troubles of his own. His party is under arrest for catching a bass that was a quarter of an inch shy in length.

Carrie Nation has discarded the hatchet and captivated New York in a bathing suit. Her figure is a little off for a first-class mermaid.

Young Vanderbilt is having all sorts of trouble abroad. Arrested as a spy, and fined for fast riding, is a little annoying to American blood.

Racine is investigating a case of attempted bribery in her common council. A \$50,000 school house contract is involved.

## COST OF SEEING

## THE PAN-AMERICAN

To see the Pan-American exposition at Buffalo on \$2.50 a day is not a very easy matter. You will put up ten cents for the round trip to and from the grounds—whether you go via the New York Central or the trolley cars. At the entrance you will yield up fifty cents for a ticket of admission and five cents for a program. Inside it will cost you 15 cents to 75 cents for lunch. Add to these figures \$1.50 for lodging for breakfast and for supper and the cost of the day is \$2.30 to \$2.90, according to the lunch you eat. This allows nothing for extras in the way of souvenirs, Midway attractions, etc., all of which are constantly appealing for more money than the average person cares to hand out. To see the Midway attractions will cost about \$8 if you don't buy anything in the way of souvenirs. If you commence to buy trinkets it will thin out your pocket book to the extent of from \$15 to \$25 and take an extra trunk to bring 'em home.

## THE FIRE RECORD.

**Mail Steamer Burns.**  
Providence, B. Ont., Sept. 4.—The Manitoulin mail steamer John Long, bound out from the mainland, with many passengers and the mails for the islands in Georgian bay, burned in Meldrum bay. All the passengers and crew escaped, although many of them were slightly burned before they reached a place of safety. The burned boat was owned by Captain Cleland. She was insured for \$5,000.

## Business Houses Swept.

Newman, Ill., Sept. 4.—A fire that mysteriously started in Gilbert's restaurant at 1 o'clock a. m., entirely destroyed a block in the business part of the city. Nine business houses were burned to the ground. The block was the property of Scott Burgett, the local banker.

## Sawmills and Lumber Burned.

Hancock, Mich., Sept. 4.—Fire completely destroyed the sawmills of the Armstrong-Tilman company here. The loss is \$100,000, partially insured. In addition to the buildings burned the entire summer's cut of wood, pine, and finished lumber was destroyed.

## Jeweler Kills Himself.

Indianapolis, Ind., Sept. 4.—Edward Ducas, proprietor of a jewelry store at 144 West Washington street and prominent in Jewish circles, committed suicide by hanging at his home in North Alabama street. Ducas was 50 years old and had been in business in this city for about twenty-five years. He leaves a widow and two sons.

## OLD VETERANS MEET EACH OTHER

H. R. Osborne and Ben Wright Had Not Met Since Leaving Libby Prison.

H. R. Osborne of Johnston was walking along North Main street this afternoon and when in front of C. D. Stevens' grocery store he met Ben Wright of Grand Meadow, Minn., who is here visiting Mr. and Mrs. C. C. Carr.

The last time that Osborne saw Wright was in March 1863, when both were confined in Libby prison. After they were released they did not see each other again until they met by chance today on North Main street. They spent a pleasant afternoon talking over the events of that stormy period.

Both men were members of the 22nd Wisconsin Volunteers but were not both in the same company. Osborne enlisted from Janesville and Wright from Delavan. They were both captured by the rebels at the same time and went to Libby prison together.

They are both hale and hearty at present and show no effects of the sufferings they had to undergo while in Libby prison.

## Boy Guides a Runaway

A horse hitched to a top buggy and driven by a small boy became frightened at the steam roller this morning shortly after eight o'clock. He went up West Milwaukee street on a dead run. The boy held onto the lines and kept him away from the passing vehicles. He was stopped near the Five Points without any damage being done to the outfit. The boy drove back down Milwaukee street and was followed by a bunch of admiring kids, who had seen the runaway.

## WILL OWN ALL MINES.

Morgan Syndicate to Combine Coal Interests.

Pittsburg, Pa., Sept. 4.—All the bituminous coal mining companies of Pennsylvania, Ohio, Indiana, Illinois, West Virginia and Kentucky are to be consolidated into one great corporation by the J. P. Morgan syndicate, according to good authority. The enormous proportions of this corporation can hardly be realized. The fact that the Pittsburg Coal company, with its capital of \$64,000,000, and the Monongahela River Consolidated Coal and Coke company, with its capital of \$30,000,000, are to be included in the greater consolidation brings this matter strongly before Pittsburg coal operators. These two corporations practically control all the output in the Pittsburg district and extend their operations well down toward West Virginia in two directions. Officers of these companies are expecting to attend a meeting of the coal operators in New York on Thursday of next week, at which the preliminary steps toward the formation of the greater combine will be taken.

## FAIL TO OBEY THE NEW GAME LAW: MUCH HUNTING WITHOUT LICENSES

### Game Wardens Being Given Strict Instructions to Compel Compliance with the Law.

Three days of hunting season have now passed and hunters who have visited the lakes and marshes of the interior Wisconsin report that ducks and aquatic game are more than usually plentiful this year. So far the reports have not been so good in regard to field game, although it looks as if prairie chickens would be more plentiful this year than in other years recently.

Hunters who are obeying the game laws, however, are loud in their complaints that they are not being lived up to by others, and reports from several of the interior counties of the state are to the effect that very little, if any attention is being paid to the license law, and that of the hunters who are hunting in those counties very few have troubled themselves to visit the county clerk and obtain the necessary license.

The state game warden has been made acquainted with this state of affairs, says the Milwaukee News, and it is said that the deputy game wardens have, within the past few days, all received very careful instructions to see that the license law is carefully observed, and that there will likely be numerous arrests in several of the counties of hunters who are hunting protected game without a license.

**Farmers Against the Law**  
From statements made by hunters in the interior of the state, it would also seem as if the license law was decidedly unpopular, especially with the rural contingent among the hunters, who have hitherto always been able to hunt without licenses and can see no reason why they should be compelled to pay for the privilege this year. So unpopular is the license law in some of the counties that agitation is already in progress to

secure the repeal of the bill; and it is said that meetings are likely to be held in Waupaca, Shawano, Dodge, and possibly Winnebago counties, at which resolutions will likely be passed against the law, and candidates for the legislature will be asked to pledge themselves to vote against the measure.

**In Interest of City Hunters**  
The farmers claim that the law is in the interest of the city hunters who have lodges along the lakes, and who only come out to them when the hunting season is on. The opponents of the law declare that they can see no reason why a farmer should not be allowed to hunt ducks on streams bordering his own land without a license.

Reports from Dodge county are to the effect that there was considerable shooting of ducks on Fox Lake and Horicon marsh before the season for ducks began and residents of Horicon stated last Saturday that ducks had been shot for two weeks on Fox Lake.

**Violations at Koshkonong**  
There are also claimed to have been some violations of the law on Lake Koshkonong and hunters who visited there Sunday say there was considerable firing at ducks on that lake early last week. Winnebago county hunters appear to think that there has been but very little violation of the law as far as the early shooting of ducks on Lake Poygan and the tributaries of the Wolf river is concerned. They, however, say there is doubtless being considerable hunting done in the vicinity of those streams by people who have not troubled themselves to take out a license. It can be said also that the license law is not at all popular with the people living near those streams.

## DESERTED WIFE IS IN DIRE DISTRESS

Mrs. John Kolasky from Monticello, Wis., is Searching for Her Husband.

Mrs. John Kolasky, who came here seven weeks ago from Monticello, Wis., with her husband and little daughter is trying to locate her husband who left her shortly after her arrival in this city to go in search of work. Kolasky is a cigar maker by trade and worked for some time in a factory at Monticello. Business became dull in the factory so he and his wife and daughter came to this city in the hope of securing work in some of the shops here.

When they arrived here they had just twenty-five cents. The husband went around to the different cigar factories in search of work but was unable to find anything to do. After talking the matter over he gave the twenty-five cents to Mrs. Kolasky and she and the little girl went to Milton Junction to see if she could find work in some family where she could earn enough to keep herself and daughter in food. Her husband boarded a south bound freight going toward Chicago and promised to write her as soon as he secured work.

She stayed in Milton Junction for some time doing what little work she could to support herself and child, finally not hearing from her husband she was obliged to quit and came here to see if she could not get the police to look him up and see what had become of him.

Chief Hogan has made numerous inquiries in regard to the missing man but so far has been unable to locate him. His wife is in a destitute condition and has been taken care of by the authorities for several days. She says she is able to work if it were not for the suspense she is laboring under as to the whereabouts of her husband.

She says that he was not addicted to drink and was a hard working man and very kind to her and her daughter when they were together. Anyone knowing anything about the whereabouts of the missing man will confer a great favor on his wife by letting her know. She fears he was stealing a ride on some freight train and was either killed or badly hurt.

**Notice.**  
In order to facilitate the prompt movement of freight we are compelled to decline to receive less car load shipments after five p. m., each day, at which time receiving doors will be closed. Same to go into effect Monday, Sept. 9th.

## NO RECORD OF THE W. P. NOBLE DEATH

Advices from San Francisco State That Nothing is Known About It at That Place.

On August 24 a telegram appeared in the Chicago Inter-Ocean from San Francisco, Cal., stating that Walter P. Noble, a locomotive engineer from Janesville, Wis., had attempted to commit suicide at the Brooklyn hotel by shooting himself with a pistol in the head. Chief Hogan at once wired the chief of police at San Francisco in regard to the man, whose wife lives here and in a day or two received word that they were unable to find any trace of the man, but to send description.

Chief Hogan at once sent a description of Noble and the newspaper clipping containing the account of the shooting. Yesterday he received a dispatch from San Francisco signed by W. P. Sullivan, Jr., chief of police, saying that no record of Noble's committing suicide could be found by the police.

Either the story was a fake or the Chicago papers got the name of the town where the shooting occurred mixed up. The name and his card from the Brotherhood of Locomotive Engineers is all right but nothing further can be found, at least not in San Francisco.

## GRAND CONCERT IS DRAWING NEAR

A Program of Local Talent That Has Never Been Excelled in City of Janesville.

Remember that only two days remain in which to secure your tickets to the theatrical event of the season. The Mid-Winter Fair committee have been to great trouble and expense to secure the renowned artists which will appear at this time for the benefit of the bonus fund for the canning factory.

Only artists of wide reputation have been engaged to take part in the concert so that there is no question but that all will get their money's worth. Mrs. Learned has appeared many times before Janesville audiences and has never failed to please her hearers.

Mrs. J. G. Rexford is known as a successful concert singer and never fails to please. She has made several tours of the country with a ladies' quartet from Minneapolis and has sung before large audiences.

Mrs. J. B. Day is a pleasing elocutionist and has just returned from a summer engagement at the Delavan Lake assembly.

The High Step Military Band is a unique organization that has created great excitement throughout the country. Their playing is above criticism.

The children's choir is being drilled daily by Mrs. W. S. Jeffris and will be in shape to give several numbers in a manner that will be sure to please.

Smith's orchestra and the Imperial band are practicing several new selections for the concert that will materially improve the program.

The selection from the "Belle of New York" is being rehearsed daily and will be equal in every way to the performances given by any of the traveling troupes that have visited the city.

J. M. Bostwick & Sons have already received an immense lot of goods for fall and winter selling. Over \$25,000 worth of blankets, dress goods, underwear, carpets, furs, ready-to-wear garments, waists, etc. Great line of Oriental rugs. They are ready for early buyers.

## ALBERT SCHALLER KING OF THE LINKS

He Has Proved Himself the Best Golf Player on the Mississippi Club Grounds.

Albert Schaller demonstrated yesterday that he had the right to be called the best golf player in the Mississippi golf club. In the finals of the handicap contest he succeeded in defeating Colin C. MacLean, one up in eighteen holes, for the Class A trophy. Mr. Schaller played at scratch while MacLean had a handicap of 4 on a round. In the first round of match play he defeated H. H. McKinney, who had a handicap of six over him and in the semi-finals he defeated J. P. Baker with a handicap of six. He will receive a handsome cup as a reward for his good playing and Colin C. MacLean gets a fine stein given him for the runner up.

In Class B, O. Sutherland with a handicap of six defeated F. J. Baker with the same handicap, one up.

In Class C, Burns Brewer with a handicap of 12 defeated Chester Brewer with a handicap of six, five up.

The trophies in all of the classes are quite handsome and well worth playing for.

The Oconomowoc party will arrive here Friday morning at 10:15 on the Milwaukee train and will be taken to the club house for practice and dinner. There will be twenty in the party, both ladies and gentlemen. W. V. Hoare, the champion long distance driver of the United States, who is professional at Oconomowoc, will accompany the party.

A team match between Oconomowoc and a team from the Mississippi club will be played after dinner.

## MOVE TO END THE STRIKE

Joliet Workers Urge Pittsburg Fellows to Break.

## NOW WANT TO RESUME WORK.

Workers At the Demmeler and Star Plants Are Invited by Joliet Men to Leave the Amalgamated Association and Join the International.

Pittsburg, Pa., Sept. 4.—A movement which may be of considerable moment in the steel strike came to light last night. Letters from influential tinplate workers of Joliet have been received by leading tinplate strikers at the Demmeler and Star plants, urging them to break away from the Amalgamated association and ally themselves with the Tinplate Workers' International association. It is argued that this would put the tinplate workers in position to ask for a scale next year, whereas if they remain with the Amalgamated association and the strike should be lost they would be compelled to go back to work individually. The movement if carried out successfully would mean that the tinplate company could resume at all of its plants within a short time. A canvass of the Demmeler men has been made, and it is said 90 per cent of them are in favor of returning to work at once. The sentiment is reported even stronger at Joliet, where the men have had work but two months in the last twelve.

## IT LOOKS DARK FOR MEN.

Strike Conditions Growing Favorable to the Steel Corporation.

Pittsburg, Sept. 4.—It was believed that the creditable labor demonstration would give impetus to the steel strikers' cause and strengthen them in their great fight, but the developments to the masters.

From nearly every point in this district the reports were of a discouraging nature to the strikers. Thirty-two new workmen, all said to be skilled, entered the Star tin plate works without molestation; 125 machinists returned to work in the Pennsylvania and Continental tube plants and twelve imported men went to work at the steel hoop mill in Monessen.

At Duquesne no further efforts were made to get the men out and the works were in full operation. Painter's and Lindsay & McCutcheon's mills were again running, with increased forces, while the conditions at McKeesport were without material change. The report that the strikers would make another demonstration at the gates of the National Tube Works and prevent the men entering the mills, as was done yesterday, drew a large crowd, but, as the men remained away, there were no disturbances.

## Rumor of Conference.

Rumors of peace still continue in circulation, but nothing definite can be traced to a reliable source. Among the latest reports is one to the effect that a conference would possibly be held today, at which the strike might be settled. Prominent manufacturers and the leaders of the strike, however, declared they knew nothing of the intended meeting.

The men taken into the Star plant come from Philadelphia and are said to be all skilled workmen. The coming of the new men was a complete surprise to the strikers and pickets, and when they saw a small army of workers, accompanied by another army of policemen, making for the main entrance to the plant, so great was their surprise that not a single picket made an effort to intercept them. They simply stood by and watched the largest body of imported men since the strike march into the plant to take their places.

The management was in good humor and announced that it expected to have seven of the mills in the plant in operation before the close of the day.

## Many Return to Work.

When the whistle blew at the Continental Tube Works in this city today seventy-five machinists and pipe-cutters entered the plant, and simultaneously fifty others returned to work at the Pennsylvania Tube Works, adjoining. No trouble resulted, and the vicinity of the mills was serene and peaceful. General Manager Lathrop of the Pennsylvania Tube Company stated that when the machinists completed the new furnace the company expected to start the plant in full. He anticipated no trouble whatever.

President Shaffer was late in reaching his office and was a tired man after the parade and speech-making of yesterday. It was 3 o'clock this morning, he said, when he retired, having been kept up attending to his mail. Referring to the truth of the statement attributed to J. D. Hickey of Milwaukee, that Mr. Morgan had offered in consideration of acceptance of the terms proposed for this year that in two years all the mills would be included in the wage agreement, Mr. Shaffer said:

"When Mr. Hickey was here he told me of several supposed statements that he was credited with, and said they were untrue, so no doubt this one is. If he made the statement, however, it referred to the executive board say concerning it."

Mr. Shaffer said, further, that he

had heard nothing from the West and that there was no change in the situation, which continued to be satisfactory to them.

## Demmeler Works to Start.

It is stated at McKeesport that the Demmeler Tin Plate Works will be started within forty-eight hours, and with its old employees. Three mills are to be put in operation, enough strikers, it is claimed, having pledged themselves to return to man that number of rolls.

Three mills were put on night turn at the Clark plant last night. The management asserts it is fully manned and will run tonight and hereafter. The other six mills are operating in full in daytime. It is also declared by the management that it has many applications from former employees for work, but that it had refused them all, as the plant is fully equipped.

## CHAINMAKERS GO ON STRIKE.

Walkout of Men at Two York Factories in Pennsylvania.

York, Pa., Sept. 4.—One hundred chainmakers employed at the two York factories of the Standard Chain company went on strike today. They went out because of the refusal of the company to sign a new scale. The men want the same wages paid in the eastern chain factories that are paid in the western factories. The Standard Chain company has factories at York, Harrisburg, Carlisle, Pittsburg, Trenton, N. J., Columbus, O., and Marion, Ind., and it is stated here that all the workmen will strike.

## TRAFFIC ON P. E. & E. RESUMED.

Money Arrives and Strikers Return with Wages Due Them Paid.

Altoona, Pa., Sept. 4.—Traffic was resumed today on the Pittsburg, Ebensburg and Eastern railroad after having been suspended for a week on account of a strike of all the employees. Sufficient money arrived here from Philadelphia to pay all back wages and the regular train schedule was observed today for the first time since last Tuesday. The tie-up inconvenienced summer residents along the line of the little railroad.

## HOLDUP ON COTTON BELT

Train Stopped and Robbed Near Texarkana, Ark.

## PASSENGERS NOT MOLESTED.

Five Men Familiar With Railroad, Detach Engine and Express Car—Safe Blown Open and Heavy Money Shipment Thought to be Stolen.

Texarkana, Ark., Sept. 4.—The east-bound Cotton Belt passenger train leaving here at 9:15 o'clock last night. In charge of Conductor Armstrong and Engineer Henderson, was held up and robbed near Elyon, four miles south of Texarkana last night. The train was flagged by one of the robbers, who forced the fireman to go back and cut off the mail and baggage cars, and, returning, forced the engineer to give up the management of his engine. One of the robbers, who, it appears, is an expert engineer, ran the engine, mail and express cars about a mile from the point where the first stop was made and forced the express messenger to open his car. The robber then blew open the safe with dynamite, securing it is said, a large amount of booty. The exact amount is withheld by the Cotton Belt railroad and the express people, but it is known that a large shipment was made tonight on this train. The robbers after securing the loot, cut off the engine from the mail and express cars, and, forcing Engineer Henderson to get off they took the engine in charge of the robber, and went south at full speed. No passengers were molested. The robbers were evidently in possession of all facts concerning this particular shipment of money, together with a schedule of the train, as their scheme was successful in every respect. Railroad employees here seem to be confident that the robbery was committed by railroad men, from the manner in which they superintended the cutting off of the cars and the handling of the engine.

## A SORRY SIGHT

It is to see a strong man shaken like a reed by a paroxysm of coughing, which leaves him gasping for breath. People have suffered with bronchial affections for years, with obstinate, stubborn cough, and growing weakness. They have tried doctors and medicines in vain. At last they have been induced to try Dr. Pierce's Golden Medical Discovery, with the general result experienced by all who put this wonderful medicine to the test—help at once, and a speedy cure.

For coughs, bronchial affections, weak lungs, spitting of blood, and other diseases of the organs of respiration, "Golden Medical Discovery" is practically a specific. It always helps; it almost always cures.

"I had been troubled with bronchitis and catarrh of the head for eight years; had severe cough, and at times great difficulty in breathing," writes J. W. Howerton, Esq. of Big Horn, Mont., "a portion of the time my appetite was poor and part of the time I was unable to do anything. I had been treated by our best country physicians for several years but with little benefit. I had been reading about your medicine for a long time but didn't much faith in it. Last spring concluded I would try it, and before I had taken one-third of a bottle of Dr. Pierce's Golden Medical Discovery I began to mend. I continued taking it until I had taken several bottles. Took Dr. Pierce's Pleasant Pellets also. Now I feel like a new man, and can do as hard a day's work as any one."

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for paper covered, or 31 stamps for cloth binding, to Dr. R. V. Pierce, Buffalo, N. Y.

"I have gone 14 days at a time without a movement of the bowels, not being able to move them except by using hot water injections. Chronic constipation for seven years placed me in the terrible condition during that time I did everything I heard of but never found any relief such as my case until I began using CASCARETS. I now have from one to three passages a day, and I feel like I would give \$1000 for each movement; it is such a relief."

# SAVES LIFE

Willard, Ill., August 1, 1900. I was in bed for four weeks. When I was confined my child died. When I began to sit up I felt so weak and had such terrible pains in my back and hips. I had kidney trouble and falling of the womb. I also had hysterical spells. I was in a bad condition when I received your "Ladies' Birthday Almanac" and read the advertisement of Wine of Cardui and Theodor's Black-Draught. Since April 20th, I have taken your bottles of Wine of Cardui and three packages of Theodor's Black-Draught. I feel like a new person now. I can do all my work and can walk out to see any of my neighbors. I believe I would have been in the grave had it not been for Wine of Cardui. IT SAVED MY LIFE. Mrs. ALICE DAVIS.

It is well that women are more patient than men. Few men could bear the bitter pangs, the agony and distress that women endure. Thousands of women have come to look upon suffering as a duty of their sex. But there are many instances of this heroic fortitude which

## WINE OF CARDUI

now renders unnecessary. Women need no longer suffer for modesty's sake. Wine of Cardui brings relief to modest women in the privacy of their homes. Many of the best homes in this city are never without this great medicine. It cures whites and falling of the womb and completely eradicates these dragging periodical pains. Mrs. Davis' cure shows you conclusively what you may expect if you follow her example and take Wine of Cardui. Theodor's Black-Draught aids Wine of Cardui by regulating the stomach and bowels. When you ask your druggist for these medicines, be sure you get them. It was Wine of Cardui and Theodor's Black-Draught that saved Mrs. Davis' life. Never take a substitute.

# COLICKY FRETTE TEETHING BABIES NEED LAXAKOLA

The Great Tonic Laxative

WATCH the children carefully. Their health, perhaps their lives, depend on keeping their bowels regular. Many parents make a mistake by giving their little children the old-fashioned, violent purgatives which are racking and griping, and are therefore not only unpleasant, but dangerous. Laxakola does not grip or irritate. It is a pure, gentle and painless liquid laxative. It is not only a sure laxative, but it contains valuable tonic properties which not only act upon the bowels, but tone up the entire system and purify the blood. A few drops can be given with safety to very young babies and will often relieve colic by expelling the wind and gas that causes it. Great relief is experienced when administered to young children suffering from diarrhea, accompanied with white or green evacuations, as LAXAKOLA neutralizes the acidity of the bowels and carries out the cause of the fermentation. It will aid digestion, relieve restlessness, assist nature, and induce sleep. For constipation, simple fever, coated tongue, or any indigestible troubles arising from a disordered condition of the stomach it is invaluable. At druggists, sec. and soc. or send for free sample to LAXAKOLA CO., 137 Nassau Street, New York, or 355 Dearborn Street, Chicago. Trade supplied by King's Pharmacy and People's Drug Store.

**W. J. Bryan Talks Politics.**  
Kansas City, Sept. 4.—Promoters of the third party conference to be held in Kansas City two weeks hence have stated that William J. Bryan was in sympathy with the movement, he was asked here concerning his attitude in the matter. He replied: "I know nothing about the third party movement in Missouri except what I have seen in the papers. If the third party is intended to influence Missouri politics, I do not see that it is needed, for the democracy has shown no inclination to abandon democratic principles, and while the party adheres to democratic principles as set forth in the Kansas City platform, new parties are not needed to accomplish reforms. Mr. Cleveland's administration drove many democrats into a third party movement, but I am not willing to believe that the Cleveland element can again obtain control of the democratic party."

**Girl Falls 80 Feet and Lives.**  
Laurel House, Catskill Mountains, N. Y., Sept. 4.—Over the precipice of the great Kaaterskill Fall, plunging headlong eighty feet, to strike a growth of balsam firs, and live through it all, is the thrilling experience today of Miss Caroline Schrader, a pretty young woman of Brooklyn. The falls, where the waters dash over the edge to the rocks, 280 feet below, was a point of great attraction. Miss Schrader ventured too near, and lost her balance. Many women who saw her topple over the height fainted. Stepladders and ropes were hurriedly brought from the hotel and daring men, after securing the ropes to trees, scaled down them hand over hand to the rescue of the girl. After an hour of peril they succeeded in bringing her to the top in an apparently lifeless condition. It was another half hour before she was resuscitated. It was found that no bones were broken.
